# **WATER-BASED HEAT TRANSFER INK SERIE**

# WATER-BASED HEAT TRANSFER INK SERIE

## **S-3700-021** **Transfer Backup White**

**S-3700-021** is an opaque back up white used both as an offset back up and screen print back up white. It has soft hand feel without losing elasticity in textile printing. It is designed for high wash resistance.

## **S-3700-021 PLUS-B** **Transfer Backup White**

**S-3700-021 PLUS-B** is an **extra** opaque back up white used both as an offset back up and screen print back up white. It has soft hand feel without losing elasticity in textile printing. It is designed for high wash resistance.

## **S-3700-021 PLUS C** **Transfer Backup White**

**S-3700-021 PLUS C** is an opaque back up white used both as an offset back up and screen print back up white. It has soft hand feel without losing elasticity in textile printing. It is designed for extra high wash resistance.

## **S-3700-381** **Water Based Elastic** **Athletic Transfer Clear Base**

**S-3700 - 381** is designed to be used in transfer printing. It has soft hand feel without losing elasticity in textile printing. It can be colored with PIGMENT-MIX series pigments. Very good runability on the screen. High open time designed to be used for cold and hot peel applications.

## **S-3700-381 PLUS-C** **Transfer Backup Clear**

**S-3700-381 PLUS-C** is designed to be used in transfer printing. It has soft hand feel without losing elasticity in textile printing. It can be colored with PIGMENT-MIX series pigments. Very good runability on the screen. High open time designed to be used for cold and hot peel applications. It is designed for extra elasticity and extra high wash resistance.

### **S-3700 TR14** **Offset Transfer Backup** **White**

**S-3700 TR14** is designed to be used in transfer printing. It has soft hand feel without losing elasticity in textile printing. It is designed for paper offset applications.

### **S-3700 TR9** **Pet & Pet Offset Transfer** **Backup White**

It is designed to be used in transfer printing for PET film for both direct and over offset. There is no pinhole on the film and it creates a smooth film. It has soft hand feel without losing elasticity in textile printing. It can be colored with PIGMENT-MIX series pigments. Very good runability on the screen. High open time designed to be used for cold and hot peel applications.

### **S-3710** **Extra Strong** **Formaldehyde Free** **Transfer Fixing Agent**

S-3710 is a formaldehyde free fixing agent used in transfer inks, improve washing fastness of water-based transfer inks. S-3710 added inks will start to lose their physical and mechanical properties within 24 hours, depending on the temperature of the environment.

### **S-3720-381** **Transfer Ink For Pet Film**

It is designed to be used in transfer printing for PET film. There is no pinhole on the film and it creates a smooth film. It has soft hand feel without losing elasticity in textile printing. It can be colored with PIGMENT-MIX series pigments. Very good runability on the screen. High open time designed to be used for cold and hot peel applications.

Water-Based Heat Transfer Ink Serie is designed to provide the single and multi-coloured transfer solutions on coated pet release film that meet every application needs. Seritex Water-Based Heat Transfer set is composition of inks, pigment-mix series, adhesives, additives, hot-melt powder and pet films (hot and cold peel for matt and gloss finishes).

We achieved the perfect combination of performance to produce a high stretch finish, soft handle and exceptional proven finishes even on the most demanding fabrics. It ensures perfect color saturation and elasticity whether are printed on light or dark colored garments to satisfy the different fabrics and printing effects.

PRODUCT	DESCRIPTION
S-3700-021	TRANSFER BACKUP WHITE
S-3700-021 PLUS B	TRANSFER BACKUP WHITE
S-3700-021 PLUS C	TRANSFER BACKUP WHITE
S-3700-381	WATER BASED ELASTIC ATHLETIC TRANSFER CLEAR BASE
S-3700-381 PLUS C	TRANSFER BACKUP CLEAR
S-3700 TR14	OFFSET TRANSFER BACKUP WHITE
S-3700 TR9	PET AND PET OFFSET TRANSFER BACKUP WHITE
S-3720-381	TRANSFER INK FOR PET FILM
S-3710	EXTRA STRONG FORMALDEHYDE FREE TRANSFER FIXING AGENT
F-450	FIXING AGENT
S-350	FAST FIXER
S-360	FAST FIXER
TP101/100-200	TRANSFER POWDER (PU)
SC-COLD-100	POLYESTER TRANSFER FILM - COLD PEEL (50X70 CM)
SC-HOT-100	POLYESTER TRANSFER FILM - HOT PEEL (50X70 CM)
